Subject: Back Yard Hens

Please forward this to City Council and the ARC Committee.

I am writing in opposition of the consideration of allowing hens within the city limits of Kinston.
What is next? Goats? Pigs? Cows?

My mother grew up on a farm and we often visited family with chickens. It is not pretty.

I honestly cannot believe this is under consideration. The vocal minority is once again leading the silent majority.

I think someone is “punking” council.

Thank you for your consideration.

Al Benton
