**Subject:** Chickens in residential areas

Hi Susan,

My wife and I are thinking of moving to the Kingston area but are concerned that the City of Kingston does not allow residents to keep small numbers of chickens in residential areas. When researching this issue we were happy to see that the council had meetings on this subject this summer. We wanted to drop you a note for three reasons: to let you know of our support of this issue; to let you know that it will be a factor we consider when deciding where to move our family; and to find out what the results of last summer's meetings were.

Can you give us some further information about what is going on at city council concerning this issue.

Thanks,

Lesley Hargreaves
