New Motions

1. Moved by Councillor M^cLaren
Seconded by Councillor Oosterhof

Whereas commemorations are formally established in the Kingston Commemorations Strategy (2015-2024) and represent intentional acts to acknowledge, remember, and educate about past people, places, events and ideas; and

Whereas our understanding of past peoples, places, events and ideas is shaped by our multicultural society and is open to re-evaluation through an increasingly diverse lens; and

Whereas the Kingston Commemoration Strategy (2015-2024) identifies as a guiding principle that commemorations shall be realized in a range of forms and together they should provide opportunities for celebration, reflection, dialogue and critique; and

Whereas the City of Kingston Commemoration Policy provides guidelines for managing commemoration requests that are on City-owned property or that require City resources or approval; and

Whereas the City of Kingston Commemoration Policy intends to provide a transparent, welcoming and efficient process to enable all sectors of the community and City Staff to understand decision-making and action for all commemorative forms; and

Whereas requests to add, alter, and/or renovate existing physical commemorations are currently covered under Category C, Commemorative

Forms within the Kingston Commemoration Strategy (2015-2024) and the City of Kingston Commemoration Policy; and

Whereas the Kingston Commemoration Strategy identifies as an outcome that new commemorations shall address current gaps in themes and subjects listed in the Priority Thematic Areas to help to foster public awareness of diverse stories;

Therefore Be It Resolved That City Staff as part of the scheduled review of the Commemoration Policy in February 2018, report back with amendments that clarify the process by which individuals and community groups can request additions, alterations, and amendments to existing commemorations and the process by which such requests would be reviewed and implemented.

2. Moved By Councillor McLaren
Seconded by Councillor Neill

Whereas opioids, include hydromorphone, oxycodone, fentanyl, carfentanyl, morphine, and heroin are a class of drug used primarily for pain relief; and

Whereas Canada is among the top prescribers of opioids in the world, and Ontario has the highest opioid-dispensing rates in the country with nearly 2 million Ontarians dispensed an opioid in 2014/15, which totalled approximately 9 million dispenses putting roughly 15% of Ontarians on prescription opioids; and

Whereas opioids act as depressants on the respiratory system, which can slow or stop breathing, and lead to overdose and death if misused; and

Whereas opioids are also accessed illicitly, either through diverted prescriptions or through the illegal drug market resulting in community crises in many parts of Canada and Ontario; and

Whereas there has been an increase in opioid-related emergency department visits and admissions to hospital in Kingston and confirmed cases of both bootleg fentanyl and carfentanyl in the KFL&A region; and

Whereas the presence of opioids such as fentanyl and the even stronger carfentanyl in the KFL&A and other illegal drug markets is concerning because Fentanyl can be 50 to 100 times more toxic than morphine, and even tiny amounts - the equivalent to one or two grains of salt - can cause overdose and death; and

Whereas fentanyl and carfentanyl are being illegally mixed into a range of other drugs, such as heroin, cocaine, counterfeit pills such as Percocet and oxycodone, and cannabis increasing the risks that individuals can unintentionally consume these powerful opioids increasing their risk of overdose and death; and

Whereas KFL&A community partners are developing a comprehensive community response to tackle the opioid crisis that focuses on prevention, treatment, harm reduction, enforcement and surveillance; and

Whereas a comprehensive approach to reduce the morbidity and mortality from opioid intoxication and overdose includes increasing the availability of Naloxone in the community; and

Whereas Naloxone is a medication that can temporarily reverse an overdose caused by opioid drugs, and can save a life by keeping an individual alive while they wait for emergency support to arrive; and

Whereas increasing naloxone availability is a key harm reduction initiative in a local community response;

Therefore Be It Resolved That the City of Kingston endorse the distribution Naloxone Kits to all public institutions and an education and training program on how to use them as part of a Community Drug Policy; and

That all City funded organization be formally asked to participate and have available Naloxone Kits and the training to use them; and

That the City of Kingston encourage the provincial government through the responsible Ministers to work together to make Naloxone Kits easily available in all public institutions; and

That this resolution be forwarded to all municipalities in Ontario, with a population greater than 40,000, with the request that they consider indicating their support for this most important initiative; and

That this resolution be forwarded to the Association of Municipalities of Ontario, with the request that they include proposing a community drug policy that includes access to Naloxone in their respective engagements with the provincial government; and

That this resolution be shared with the Premier of Ontario, all opposition leaders, the ministers of health and Long-Term Care, opposition health critics, our local MPPs, the four school boards, and all city funded organizations.
