New Motion

1. Moved by Councillor M^oLaren
Seconded by Councillor Hutchison

Whereas Kingston has been designated a “non-high needs” community for family physicians in general practice and family medicine; and

Whereas Family Physicians are incentivized to practice in high need communities; and

Whereas because Kingston is designated a “non-high needs” community, family physicians are restricted from practicing in Kingston under the most desirable practice models, such as Family Health Teams; and

Whereas there is a growing number of unattached patients in Kingston; and

Whereas the existing number of Family Physicians are unable to increase their patient roster size due to existing demands of patient caseload; and

Whereas Kingston’s existing supply or availability of Family Physicians continues to decline due to deaths, retirements, relocations, reduced patient roster size due to increased complexity of care for patients, and changing work-life balances; and

Whereas physicians working at institutions such as Corrections Canada, CFB Kingston and Queen’s University are counted by the province but are often engaged in research or other academic activities and therefore, do not carry a full patient roster, if at all; and

Whereas our population, especially students, continues to grow and while family physicians may obtain a license and billing number to practice in Kingston, few consider it due to an imbalance in practice management demands and compensation/remuneration models resulting in physician income declining by 29% over five years; and

Therefore Be It Resolved That the City Council of Kingston strongly petitions the Ministry of Health and Long Term Care to re-evaluate Kingston’s designation as a

“non-high needs” community and recalculate the physician services level, taking into consideration our true need based on:

1. The number of unattached patients in our catchment area;
2. Recent and ongoing attrition in the population of Family Physicians;
3. The actual size and complexity of patient rosters in existing family physician practices;
4. Emergency department utilization rates;
5. The presence of family physicians who do not have a family practice open to the general public due to their affiliation with institutions; and

That this motion be shared with the Premier of Ontario, the provincial opposition party leaders, the Minister and critics of the Ministry of Health and Long Term Care, and our MPPs, Randy Hillier and Ian Arthur.
