The City is planning to replace the washroom/change room building in Grass Creek Park.

The project will involve the reuse of a post and beam structure that once sheltered the Phoebe Antique Steam Launch exhibit. The new structure will be located in roughly the same location as the existing facility. The existing septic tanks are to be replaced with a septic field.

Partial funding for this project was provided by the Pittsburgh Community Benefit Fund.

Floor Plan

- Women’s Washroom: 4 washroom stalls including 1 accessible
- Men’s Washroom: 4 washroom stalls including 1 accessible
- Universally Accessible Washroom
- 3 change rooms including 1 accessible
- All components of the building and site will adhere to City of Kingston facility accessible design standards.
