Safe Routes to School is a community-level program designed to make it easier for students at partner schools to get to and from school using active modes of transportation.

Getting students moving.

Why walk or bike to school?

- Safer School Zones
- Healthier Children
- Less Traffic and Pollution
- Better Academic Performance

The Five E’s

- Education
- Encouragement
- Enforcement
- Engineering
- Evaluation

Getting more students using travel modes that are active, safe and sustainable relies on the Five E’s:

Safe Routes to School in Action

1. School Travel Committee is established
2. Neighbourhood conditions are assessed
3. Action Plan is developed
4. Action Plan is implemented
5. Conditions are reassessed
6. Keep it Going
