Neighbourhood Profiles - 2011 Census

24 – Rideau Heights

This neighbourhood profile is based on custom area tabulations generated by Statistics Canada and contains data from the 2011 Census only. The 2011 National Household Survey (NHS) data (e.g. labour force activity, income, etc.) is not available for this neighbourhood profile as the information was not of sufficient quality for planning purposes. Further notes on data quality, comparability and the glossary of terms are indicated on Page 4 of this document.

Location

The Rideau Heights neighbourhood is located in Kingston Central and is generally bounded by Conacher Drive to the north, the eastern shoreline of the Great Cataraqui River to the east, Belle Park Drive to the south and Division Street to the west. The adjacent neighbourhoods include Markers Acres, CFB Kingston, Inner Harbour and Cataraqui River East. Places of interest (e.g. child care centres and schools) and other amenities are also noted in the map.
2011 Census data – Rideau Heights

The following neighbourhood data is from the 2011 Census. The 2011 Census collected data from all households in Canada and includes information on population, dwellings, language and household characteristics. As the data is of good quality, general comparisons can be undertaken with similar data from previous census years.

Total Population: 6,435

Notes on Data Quality and Comparability

This neighbourhood profile is based on custom area tabulations provided by Statistics Canada and contains data from the 2011 Census. The 2011 National Household Survey (NHS) data is not available for this neighbourhood profile as the information was not of sufficient quality for planning purposes.

The 2011 Census data is considered to be of good quality and general comparisons can be undertaken with similar data from previous years.

The figures shown in the tables and charts have been subjected to a confidentiality procedure known as random rounding to prevent the possibility of associating statistical data with any identifiable individual. Under this method, all figures, including totals and margins, are randomly rounded either up or down to a multiple of "5", and in some cases "10". While providing strong protection against disclosure, this technique does not add significant error to the data. The user should be aware that totals and margins are rounded independently of the cell data so that some differences between these and the sum of rounded cell data may exist. Also, minor differences can be expected in corresponding totals and cell values among various census tabulations.

For more information about the 2011 Neighbourhood Profiles, please contact the City of Kingston Planning Division at neighbourhoods@cityofkingston.ca.

Glossary of Terms

The following glossary descriptions are based on the 2011 Census. For more information, please refer to the Statistics Canada website at Statistics Canada.

2006 and 2011 population
Statistics Canada is committed to protect the privacy of all Canadians and the confidentiality of the data they provide. As part of this commitment, some population counts of geographic areas are adjusted in order to ensure confidentiality.

Counts of the total population are rounded to a base of 5 for any dissemination block having a population of less than 15. Population counts for all standard geographic areas above the dissemination block level are derived by summing the adjusted dissemination block counts. The adjustment of dissemination block counts is controlled to ensure that the population counts for dissemination areas will always be within 5 of the actual values. The adjustment has no impact on the population counts of census divisions and large census subdivisions.

Institutional resident
Person who lives in an institutional collective dwelling, such as a hospital, a nursing home or a jail. This includes residents under care or custody and employee residents and family members living with them, if any.

Age
Refers to the age at last birthday before the reference date, that is, before May 10, 2011.

Census family
Refers to a married couple (with or without children), a common-law couple (with or without children) or a lone parent family.
Lone parents
Mothers or fathers, with no married spouse or common-law partner present, living in a dwelling with one or more children.

Mother Tongue
Refers to the first language learned at home in childhood and still understood by the individual on May 10, 2011.

Movable dwelling
Includes mobile homes and other movable dwellings such as houseboats and railroad cars.

Non-family household
One person living alone in a private dwelling or to a group of two or more people who share a private dwelling, but who do not constitute a census family.

Private dwellings occupied by usual residents
A separate set of living quarters which has a private entrance either directly from outside or from a common hall, lobby, vestibule or stairway leading to the outside, and in which a person or a group of persons live permanently.

Total number of census families in private households
Census family structure - Refers to the classification of census families into married couples (with or without children of either and/or both spouses), common-law couples (with or without children of either and/or both partners), and lone-parent families by sex of parent. A couple may be of opposite or same sex. A couple with children may be further classified as either an intact family or stepfamily, and stepfamilies may, in turn, be classified as simple or complex. Children in a census family include grandchildren living with their grandparent(s) but with no parents present.

Total number of occupied private dwellings by structural type of dwelling
Structural type of dwelling - Characteristics that define a dwelling's structure, for example, the characteristics of a single-detached house, a semi-detached house, a row house, or an apartment or flat in a duplex. Refers to the structural characteristics and/or dwelling configuration, that is, whether the dwelling is a single-detached house, an apartment in a high-rise building, a row house, a mobile home, etc.

Total number of private households by household size
Household private - Person or group of persons occupying the same dwelling. Refers to a person or a group of persons (other than foreign residents) who occupy a private dwelling and do not have a usual place of residence elsewhere in Canada.
Household size - Number of persons occupying a private dwelling. Refers to the number of usual residents in a private household.

Total population 15 years and over by marital status
Refers to the marital status of the person, taking into account his/her common-law status. Total number of census families in private households.
