How many interim tax bills will I receive?
Most owners will receive only one interim tax bill per property. Tax billings are split into two groups:
• uncapped properties: including property assessed in the residential, farm, new multi-residential and managed forests property classes;
• capped properties: including property assessed in the commercial, industrial, multi-residential and pipeline property classes. Property owners who have a property assessed in both of these groups will receive two interim tax bills. To determine your property's total interim taxes, add together the 2020 interim taxes from the tax bill summary sections. If you receive two interim tax bills, please be aware that any arrears or credits will show on the uncapped tax bill only. Payments will be applied according to payment application information noted below.

Returned cheques
It is your responsibility to ensure that all cheques submitted are properly completed and signed. Any cheques not honoured by your bank will result in a $38.10 charge being added to your tax account, plus any applicable penalty and interest charges that would apply.

Payment application and late payment charges
Payments must be received by the Tax Department on or before the due date in order to avoid late payment charges. Failure to receive a tax bill does not excuse a taxpayer from the responsibility for payment nor relieve the liability of penalty for late payment.

A penalty of 1.25% will be charged on the unpaid amount of an instalment on the first day of default. Monthly interest charges of 1.25% (15% per annum) will be imposed on any unpaid taxes on the first day of each month thereafter. Penalty and interest rates are set by City bylaws pursuant to section 345(1) of the Municipal Act, 2001. When payments are made, they are first applied to any outstanding penalty or interest and are then applied in payment of taxes, which have been in arrears for the greatest period of time. Penalty and interest charges are deemed to be taxes and cannot be waived.
