Whereas increasingly citizens who may be facing accessibility related challenges are seeking some relief in order to remain in their homes; and

Whereas some handicapped residents have great difficulty accommodating access buses or taxis at their homes, and face great difficulty parking near their homes;

- a) a single front yard parking pad where it will assist a resident to remain in their home; and/or
- b) a resident may seek a handicapped parking space immediately in front of their residence; and

That any such options would be only applicable to residents with mobility accessibility issues; would have limiting criteria and would ensure full cost recovery as part of the criteria; and

That staff prepare a preliminary report to EITP no later than the end of March, 2016 to allow for a public meeting to seek public input; and
